

Engineering Vacancy

A challenging and dynamic opportunity now exists to use your strong electronic and mechanical abilities, alongside your extensive knowledge of printing machinery here at White Horse Machinery; the undisputed Worldwide market leader for the supply of pre-owned and reconditioned printing equipment.

Due to recent business growth, we are now looking to recruit an experienced engineer. With familiarity with Heidelberg, Roland and Komori presses, the ideal candidate will be able to carry out dismantling and installing machinery, whether electronically or mechanically.

This role will include international travel as well as an attractive salary and benefits package. If this sounds like the job for you, send over a copy of your CV along with a covering letter to convince us that you're our next Senior Engineer!

Applications should be submitted to Robin Mannall, White Horse Machinery Limited, Unit 3 Fusion Point, Ash Lane, Garforth, LS25 2GA.

We look forward to hearing from you!
